FRANKIA

FRANKIA NEO

See for yourself!

Highlights of the FRANKIA NEO

The FRANKIA NEO knows the way: It's all about innovative light-weight design with a total weight of 3.5 or 4.5 t and an agile length of under 7 m. The Sprinter by Mercedes-Benz provides a great base with powerful front wheel drive.

Priority No. 1: Setting new standards

Never rest, push the limits, create something new – this has always been the spirit that connects FRANKIA and Mercedes-Benz. 50 years ago, today and tomorrow.

Get out there, no matter when

Perfect for winter travel: New ThermoProtect wall structure made of high-quality aluminium alloy, durable GFRP roof and heated double floor

Luckily you discovered the NEO formula

Exceptional spaciousness + lightness + class = NEO! It's that easy with 2 m of headroom and high-quality light-weight design according to FRANKIA standards

It suits me

Now, in addition to the MT / MI 7 GDK with single beds, the NEO is also available as an MT / MI 7 BD model – with transverse bed in the rear and spacious seating area. Both are equipped with a large kitchen and 84 l refrigerator as standard.

Everything's so easy

Packing was never easier: Innovative Smart-Load system by FRANKIA (optional) – with extra-large tailgate, lowered rear storage compartment and front load-through storage in the double floor

Everything's so practical

With Light Wing lighting (optional), multifunctional features in the bathroom, driver assistance systems such as Crosswind Assist and Keyless Start, self-retracting cable reel (optional) and much more

There's so much space

Full-length double floor with 20 to 40 cm height thanks to special AL-KO frame, large rear storage compartment with 1.20 m height, loads of storage space in the interior

1) The vehicle mass when ready for driving has been determined in accordance with Reg (EU) 1230/2012, but reflecting the drive load of the fresh water tank (see Fn. 3 and 4) and one aluminium gas bottle (11 kg)

2) Trailer load may vary depending on the configuration selected

3) Possible with the appropriate setting of the valve on the fresh water tank: max. 125 l

4) Capacity of the fresh water tank acc. to Ann. V, part A, para. 2.6 Fn. (H) Reg (EU) 1230/2012, considering the 20 l drive load

General note

Information on weights and dimensions are implemented in accordance with Reg (EU) 1230/2012 provided that the catalogue including technical data and price list contains no contrary information.

FRANKIA M-LINE

Trendsetting, thrilling, modern

Highlights of the FRANKIA M-Line

FRANKIA makes the Mercedes-Benz star shine bright like never before: From the lightweight 3.5 t Low-Profile (FRANKIA NEO) and the FRANKIA M-Line A-Class premium liner to the fully equipped FRANKIA PLATIN luxury model.

Strong partners, new horizons

Never rest, continue to improve, set new benchmarks – this has always been the spirit that connects FRANKIA and Mercedes-Benz. 50 years ago, today and tomorrow.

One-of-a-kind model, luxury for two

FRANKIA exclusive: 5.5 t Low-Profile on a Mercedes-Benz platform – with gigantic panoramic roof, compartments all the way to the front of the vehicle, separate twin beds and a large seating group

Larger seating area, ideal for large groups

Only FRANKIA has it: Great round seating group meets Mercedes-Benz in the I 7400 PLUS, open floor plan for loft-like charm, sleep lengthwise and the power drop-down bed

Powerful base, dynamic driving pleasure

Powerful rear-wheel drive with great traction, FSD technology, infotainment with MBUX, innovative driver assistance systems (optional)

Maximum space, more out of life

Unbelievably spacious with 2.03 m of headroom in the light-flooded interior, completely stepless double floor, clever storage solutions in every corner – inside and out

Smart details, high-end comfort

Central supply system with self-retracting cable, up to 160 l fresh water tank, Thermo Guard Plus wall structure, Alde Compact hot water heating system – perfect for winter travel, too

Unique lightness, innovative vehicle

FRANKIA M-Line NEO: 3.5 t vehicle with impressive payload, powerful front wheel drive, premium storage space with Smart-Load concept, now with lengthwise or crosswise bed (new)

Enjoy great freedom with Fiat-Ducato

Highlights of the FRANKIA F-Line

The FRANKIA F-Line offers fascinating configuration options that are only possible on a Fiat Ducato platform in combination with an AL-KO low-frame. A-Class or Coachbuilt, custom compact or luxury liner – choose between 11 unique floor plans with a length of 6.5 to 8.5 metres.

Breaking new ground with strong partners

Never rest, continue to improve, create something special – this has always been our aim with FRANKIA models on a Fiat Ducato platform with an AL-KO low frame. 37 years ago, today and tomorrow.

PLUS more: The FRANKIA floor plans are one of a kind in all respects

The popular and spacious FRANKIA round seating group comes in two different shapes and lengths in four F-Line floor plans (A-Class or Coachbuilt)

The right equipment for every season

Fully insulated Thermo Guard Plus wall structure with 7-year warranty, Alde Compact hot water heating system, full-length, heated double floor with an approx. 350 mm height

The ideal basis to experience a new level of driving pleasure

New cockpit with state-of-the-art assistance systems, up to 90 l diesel tank, 9-speed automatic gearbox (all optional), eco-friendly AdBlue Technology

Sophisticated features standard – very FRANKIA

Stepless interior with over 2 m of headroom, double floor accessible from the interior, extra-large windows, FRANKIA central supply system, XL rear storage compartment with a height of up to 1.24 m and much more

Between waves and birdsong

Unforgettable: Stay a while and enjoy the sound of nature. Spend your free time your way – in the FRANKIA Coachbuilt. You have plenty of space here, even to sleep lengthwise.

The best short cut since the launch of the F-Line

Short but sweet: The I 680 SG with fully converted rear and the I 640 SD with large spa-like bathroom crosswise in the back

FRANKIA TITAN

Impressive performance

Highlights of the FRANKIA TITAN

The FRANKIA TITAN is the all-rounder among the luxury liners on a Fiat Ducato platform. Choose from five integrated floor plans with a length of eight to nine metres. Whether power drop-down bed, separate beds or extra-wide queen-size bed – it's up to you how you want to live and sleep.

More ground-breaking ideas – thanks to strong partners

Never rest, continue to improve, create something special – this has always been our aim with FRANKIA models on a Fiat Ducato platform with an AL-KO low frame. 37 years ago, today and tomorrow.

Way more storage space

Extra-large rear storage compartment with a height of 1.24 m, FRANKIA double floor (stepless and heated) with a continuous height of 35 cm and many clever storage solutions in the interior

More standard features for maximum comfort

Fully insulated Thermo Guard Plus wall structure with 11-year warranty, Alde Compact hot water heating system, up to 300 l XL fresh water tank

More driving pleasure with Fiat Ducato

All inclusive: New cockpit, 90 l diesel tank, 9-speed automatic gearbox, eco-friendly AdBlue Technology, rear-view camera and much more

More technology for greater independence

Only the FRANKIA TITAN has it: Unique technology package including two 100 Ah LiFePO4 batteries, 2 x 115 W high-performance solar system, 1,700 W sine wave inverter and much more

More impressive than ever: Living and travelling in the FRANKIA TITAN I 890

Luxury liner with a length of nearly 9 m, 5.5 t total weight standard and bar-style seating. It's your choice: Separate beds with a length of 2.10 m or 1.60 m wide queen-size bed

More freedom with the next-generation luxury liner: FRANKIA TITAN Next

Enjoy greater independence: FRANKIA's new luxury liner sets new standards in self-sufficiency with the INDUS smart sanitation system

FRANKIA PLATIN

Stand out even among the best

Highlights of the FRANKIA PLATIN

FRANKIA's luxury liner on a Mercedes-Benz platform comes in five different layouts from a length of eight metres. Choose between two different round seating groups, separate beds or the new 1.60 m wide queen-size bed

Breaking new ground with a strong partner

Never rest, continue to improve, set new benchmarks – this has always been the spirit that connects FRANKIA and Mercedes-Benz. 50 years ago, today and tomorrow.

Enjoy your freedom with exceptional extras

All the extras are standard here: Fully insulated Thermo Guard Plus wall structure with 11-year warranty, 270-l fresh water tank, FRANKIA central supply system and much more

Move forward with unique floor plans

Only FRANKIA has it like this! Mercedes-Benz + technology package for self-sufficiency + luxurious XL round seating group = FRANKIA | 7900 PLUS PLATIN

Travel self-sufficiently with unique technology

Only FRANKIA has it like this! Technology package including one 300 Ah lithium battery, four high-performance solar modules, sine wave inverter, power charging booster and much more

Experience driving pleasure with Mercedes-Benz

High performance for the road: Powerful rear-wheel drive with great traction, 190 hp, infotainment with MBUX and much more

Impress with great ideas

Extra-large FRANKIA spa-like bathroom and FRANKIA MaxiFlex kitchen, 2.03 m of headroom throughout the stepless, light-flooded interior, rear storage compartment with a height of up to 1.24 m

Show character with unique style

The FRANKIA PLATIN has personality – and it shows it, too: With its bold and dynamic exterior design and elegant interior with exclusive leather upholstery (optional)

BEDS

OP39200	Cupboards instead of	front drop down bed	-60
OP39220	Front drop down bed	instead of cupboards. For NEO A-Class	44
OP39250	Curtain for drop down bed	(separating living area)	2
OP39300	Ladder for front drop-down bed	with fixings (loaded in the motorhome, has to be installed by dealer)	3
OP39350	Pull-out Duo Bed	extensible to 1930 x 1970 mm (mattress dimensions)	20
OP39450	Central bed extension	between the 2 rear beds on GD layout (with additional mattress part) with ladder for easier access to the beds	8
OP39452	Central bed extension for NEO	between the 2 rear beds on GD layout (with additional mattress part) with ladder for easier access to the beds	10

KITCHEN EQUIPMENT

OP39500	Kitchen rear panel and	side protection brilliant white (Ice - white) (instead of standard version)	0
OP39510	Kitchen rear panel	brilliant white (Ice - white) (instead of standard version)	0
OP39550	Thetford oven	with grill function Tec Tower (if standard) replaced with fridge 153 l with storage above it	22
OP39552	Thetford oven with	grill function for NEO	15
OP39562	Fridge 138 l for NEO	Thetford compressor fridge 138 l (126-12)	10
OP39570	3-burner-hob	with two-part cover, instead of the standard hob	0
OP39650	Kitchen combination	with grill, gas oven, 3-burner hob Tec Tower (if standard) replaced with fridge 153 l with storage above it. kitchen drawers will be replaced by kitchen combination.	22
OP40050	Synthetic resin MiracleWhite	for kitchen worktop, kitchen rear panel and side protection (if present), washroom top and under the standard TV place (if present). Instead of the standard material (HPL). Please note that the other surfaces will be in the material according to the chosen living world or personal interior design. Please note: Signs of scratches and daily wear and tear are inevitable during customary use and these become more obvious in the case of high-gloss and colour-intensive decors in comparison to other decors.	8
OP40100	Synthetic resin TitanWhite	for kitchen worktop, kitchen rear panel and side protection (if present), washroom top and under the standard TV place (if present). Instead of the standard material (HPL). Please note that the other surfaces will be in the material according to the chosen living world or personal interior design. Please note: Normal use scratch and wear marks are unavoidable and will be more visible on high-gloss and intensely coloured surfaces. Especially for GetaCoreUni decors minor occasional dust inclusions cannot be ruled out due to production procedures.	8
OP40150	Ventilator for refrigerator		1

Optional extras

Weight in kg

GAS

OP40200	Duo Control	with Eis-Ex	2
OP40202	Duo Control for NEO	with Eis-Ex	2
OP40215	Gas filter for vehicles	with Duo Control (2 filters) Only in combination with Duo Control!	1
OP40217	Gas filter for vehicles with:	Duo Control (2 filters) Only in combination with Duo Control! for NEO	1
OP40220	Gas filter for vehicles:	with Duo Control (2 filters) (for TITAN and PLATIN)	1
OP40250	External gas socket		1
OP40252	External gas socket (NEO)		2

WASHROOM / WATER

OP40400	Fresh water filler neck	(Installation only possible in outside wall!) (emergency filler neck n/a)	1
OP40450	Outside shower	warm/cold water (Installation only possible in outside wall)	1
OP40452	Outside shower for NEO	warm/cold water (Installation only possible in outside wall)	2
OP40500	Mains water connection	pressurized water connection, for water filling in the car circuit	1
OP40550	Ventilator/charcoal filter	for Thetford toilet (Please note that an additive for the toilet still has to be used)	1
OP40655	Addit. fresh water vol. 100l	with possible limitation for F-LINE (installation possibility has to be checked)	16

ELECTRICITY

OP41010	LEAB LiFePO + 165W solar panel	LEAB LPS Lithium Power Supply LiFePO battery 160 Ah, charger 50 A, inverter 2000 W, booster 45 A. With 165 W solar panel.	55
OP41080	LiFePO battery 100 Ah for NEO	(instead of standard battery)	-15
OP41150	Solar panel 165 W	with solar charge regulator Position of the solar panel: see roof plan Additional costs can occur if standard roof fittings have to be placed at a different position (250 EUR net for each element)	26
OP41152	Solar panel 165 W NEO	with solar charge regulator Position of the solar panel: see roof plan Additional costs can occur if standard roof fittings have to be placed at a different position (250 EUR net for each element)	26
OP41200	Solar panel 115 W	with solar charge regulator Position of the solar panel: see roof plan Additional costs can occur if standard roof fittings have to be placed at a different position (250 EUR net for each element)	13
OP41202	Solar panel 115 W NEO	with solar charge regulator Position of the solar panel: see roof plan Additional costs can occur if standard roof fittings have to be placed at a different position (250 EUR net for each element)	13
OP41250	Inverter	1700 - input voltage 12 Volt DC - output voltage 230 Volt - continuous output 1700 W - connection to all 230 V sockets	9
OP41252	Inverter NEO	1700 - input voltage 12 Volt DC - output voltage 230 Volt - continuous output 1700 W - connection to all 230 V sockets	9
OP41295	Socket pack TITAN NEXT	Installation of 3 x additional 230 V sockets (1x at kitchen, 1x behind the left cab seat, on the outside of the seating bench and 1x in the base of the upper rear cabinet, accessible from the inside, on the right in the direction of travel) and 1x USB behind the left cab seat, on the outside of the seating bench.	2

OP41300	Socket pack for NEO GDK	Installation of 6 x additional 230 V sockets (kitchen, seating group, rear bed left and right, storage compartment near kitchen and rear garage) and 1x 12 V socket (rear garage). See photos for exact positions.	4
OP41301	Additional socket 230V pos. 1	behind the left cab seat, on the outside of the seating bench	1
OP42001	Additional USB socket pos. 1	behind the left cab seat, on the outside of the seating bench	1

MULTIMEDIA

OP42530	Speaker system (TITAN)	with high quality speakers. Only in combination with the TITAN Pack.	9
OP42550	Split rear view camera	with double lens and autom. shutter cover, with separate 7 inch monitor	3
OP42552	Rear view camera	with interface for direct connection to the MBUX multi media system of Mercedes (no separate monitor required). Only in combination with MBUX! Due to the design, no guide lines can be displayed.	3
OP42554	Rear view cam NEO	with interface for direct connection to the MBUX multi media system of Mercedes (no separate monitor required). Only in combination with MBUX! Due to the design, no guide lines can be displayed.	3
OP42560	360° camera system	with separate monitor (only possible for A-class)	9
OP42570	360° camera system instead of	rear view camera (only possible for TITAN and PLATIN)	6
OP42600	Back-up help sensor	top + bottom. Please note: Sensors are permanently activated, even when a trailer hitch is installed	2
OP42650	Additional TV socket	12 V / coaxial socket. For future connection of a TV set. Position: GD layouts: next to the rear beds, on the side where there is no sliding door QD layouts: next to the rear beds, on the right side BD layouts: next to the rear bed, at the front on the right side PLUS layouts: next to the front bed	1
OP42750	LED flatscreen SL-24 inch	DSB with DVB-T2/S2, DVD player, Bluetooth (with movable holder). Additional TV for 2nd TV holder (sleeping area). Only possible in combination with Sat antenna.	6

AIR CON / HEATING

OP42800	Trumatic Combi 6 E heating	instead of Combi 6 - Possibility of operation with 230 V / 1,8 KW - mixed mode gas/230V - 6 KW	4
OP42802	Trumatic Combi 6E heating NEO	instead of Combi 6 - Possibility of operation with 230 V / 1,8 KW - mixed mode gas/230V - 6 KW	4
OP42900	ALDE warm water heating	(Storage room in wardrobe is restricted, dimensions of the beds may change!)	40
OP43000	Additional ventilator	for emission of warm air at the front screen (only for A-Class) Only with ALDE heating or Luxury equipment	8
OP43060	ALDE engine heat exchanger	for pre-heating the engine in the winter or using the heat from the engine to keep the temperature in the living space while driving	5
OP43110	Floor heating	under seating group, only available in combination with option: ALDE warm water heating or Luxury pack (depending on layout)	10
OP43150	Air con Truma Aventa	Cooling capacity 2400 W / heating capacity 1700 W (Installation position: see roof plan) For the following models with this option the Heki 3 (in addition to the Mini-Hekis) will have a forced ventilation in order to ensure the minimum ventilation openings for the use of gas appliances according to DIN EN 721: 680 PLUS, 740/790 PLUS, 740 GD	36

OTHERS

OP43330

Tightness warranty extension

from 7 to 11 years for Thermo Guard Plus (according to the warranty conditions)

0

Small but significant enough

SIZE SPECIFICATIONS

The **total vehicle length** corresponds to the measurement between the outermost point of the front spoiler and the outermost point of the rear panel (without trailer coupling).

The **total vehicle width** corresponds to the measurement between the outer sides of the exterior walls on both the driver and passenger side without outer mirrors.

The **total vehicle height** may vary with installations and roof options (e.g. skylights, SAT or air conditioning system etc).

The **bed measurements** specified are external measurements. The measurements of the mattresses supplied may differ.

The accessories and original spare parts recommended by FRANKIA have been especially developed for your vehicle and approved by us. Your FRANKIA trading partner supplies these products; they have been informed about the permissible technical details and professionally carry out all necessary work.

Accessories, additions, alterations or fitted components not approved by FRANKIA can lead to damages on the vehicle and compromise road safety. Even if these parts have been approved by an expert, have a parts approval document or certificate, this by no means ensures that the product is of sufficient quality.

Please understand that no liability will be assumed for damages caused by products that have not been approved by FRANKIA, or indeed modifications that were not permitted.

Please note that the prescribed axle loads must be adhered to when fitting special rear attachments such as motorbike brackets, trailer couplings or loading of the rear garage (depending on layout plan).

The prices specified for the optional equipment only have validity as part of new series production. Retrofitting of special optional equipment is sometimes not possible or associated with substantial additional costs.

The total vehicle height may vary with installations and superstructures (e.g. skylights, SAT or air conditioning systems). The number of persons indicated is dependant on weight and axle load. This number can reduce if accessories and optional equipment are installed.

The number of persons specified refers to the weight of the vehicle in production configuration. The optionally selected number of persons is specified

in the registration certificate, which can, nevertheless, only be reached with a weight load increase depending on the model. The technically permissible total mass and the axle loads may not be exceeded. The payload capacity is primarily dependant on the unladen weight. It is reduced by the fitting of accessories and optional equipment. It also presupposes an axle load-dependent distribution of the payload.

The specified mass in running order is defined by Regulation (EU) 1230/2012. It includes, in addition to the mass of the standard equipment of the vehicle when equipped (basic vehicle configuration acc. Directive 2007/46/EC Annex IV or XI), the mass of up to 90 % of the fuel tank capacity (S), the driver (75 kg), tools (6.5 kg), as well as up to 100 % of the filled liquid tanks (fresh-water tank (120 l/150 l) and aluminium gas cylinder(s) (11 kg)). Decisive for the mass of the fresh-water tank is its capacity as described in Appendix V, part A, para 2.6 Fn. (H) Reg (EU) 1230/2012, taking into consideration the movement limitation – if any – based on the amount in litres specified in this technical documentation.

Deviations no more than +/- 5 % in the mass in running order are permissible for production reasons.

In principle, the optional equipment and accessories increase the weight in its roadworthy condition and reduces the possible payload as well as the storage space depending on the model. The maximum permissible vehicle weight and axle loads must be observed when the capacity of the fuel and/or fresh water tank is increased. This applies particularly to optional equipment and accessories. The payload for tank systems modified against the standard design must be obtained by the vehicle owner themselves. The maximum towing capacity depends upon the total weight of the vehicle.

Bed dimensions

SD -LAYOUT (I 640)

Drop-down front bed (L x W)

192 x 140 cm

(Option: Duo-bed 192 x 200 cm)

SG -LAYOUT (I 680)

Drop-down front bed (L x W)

192 x 140 cm

(Option: Duo-bed 192 x 200 cm)

GD -LAYOUT (MT 7 NEO, I / T 7400, I 740, I 790, I 840, I 890, I 790 TITAN, TITAN NEXT, I 840 TITAN, I 890 TITAN, I 7900 PLATIN, I 8400 PLATIN)
